

## CITIZENS' PLATFORM

We expect each political party will bring its best to solve problems the Citizens of America want solved. We believe that America prospers when our problems are solved in a bi-partisan way. We believe that America is great because of robust debate and compromise.

The poll numbers may vary, and other issues could be added to this list, but **Imagine how our lives could change for the better if congress enacted long-term bi-partisan solutions to these issues!***

The list of issues a *majority* of the American people want solved, keeps growing.
